

1. Go to 'My Account' From the home screen

2. Click 'Configure Video'

3. Follow steps 1-5 to configure your webcam with the system.
 - a. Step 1 – Install your webcam (probably all ready done – click 'continue')
 - b. Step 2 – install Microsoft Media Encoder (you may have to do this for the video capture to work – follow steps to download)
 - c. Step 3 – Install Perfect Interview Web Capture Application (just click 'continue')
 - d. Step 4 – Specify Video Capture (Don't change settings here – just click 'continue')
 - e. Step 5 – Test your video capture (Select 'Test Camera') when done, 'close' and return to main menu for completing your interview
