Additional Comments

19. Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

For unduplicated headcount: the college defines academic year with a leading fall semester so one year would be Fall, Spring and Summer (we don't have winter sessions).

For ISS calculation: the college subtracts a five-year standard deviation from the five-year average of the metric. For aspirational, the SD is added.

For Course Success rate: the college excludes non-credit grades.

For Transfer counts: the college methodology was adjusted this year to align counts closer to the State's definition. The definition the college used is as follows: number of students who started at Saddleback, completed 12 units in the district and without prior 4-year enrollment who transferred to a 4-year institution after attending saddleback.

For job placement rates, the data source used, Perkins Core Indicator Report, is always one year behind current numbers, so placement rates are reflective of the 2018-19, 2019-20, and 2020-21, respectively. Also, if there is a "0" for the job placement rate it is because the perkins indicator report did not have the data.

By submitting this report on behalf of my institution, I confirm that the data and information contained herein is accurate and correct to the best of my knowledge. The institution acknowledges that knowingly submitting false or inaccurate data may result in notification to the U.S. Department of Education and/or accreditation action.
